Librex Newsletter - December 2014

Hi Marc-Andre,

Here's the December edition of our Librex Newsletter, which has the goal of keeping you informed about various Librex best practices and presenting you some of our new features.

Secure Your Communications

Your document and information's security shouldn't be neglected, especially in a context with a distributed architecture where some of your data transits on unsecured networks that are not located in a virtual private network (VPN).

For example, if your Librex server is hosted in a public cloud service, it becomes important to secure the data that is transferred between your workstations and server.

To reach this goal, we implemented a security layer based on the SSL protocol in the communications between the Librex clients and servers.

This security isn't activated by default as it doesn't apply to all scenarios, but you'll be able to activate it when upgrading Librex. The installation wizard will guide you on how to achieve this.

Thanks And Happy Holidays!

In this holiday's season, we want to take a moment to thank you for the interest you have in Librex, as a current or possibly future user. We also want to use this opportunity to wish you and your family happy holidays.

Thanks for your confidence and thanks for letting us help you manage your documents efficiently. We're passionate about what we're doing and excited about what we foresee for Librex in 2015. Stay tuned!

Thank you for reading our Librex newsletter. We appreciate your interest in our solution and invite you to contact us for any question.

We also invite you to follow us on [Twitter](#) or like us on [Facebook](#) to get all the latest news on Corium and Librex.

To consult the complete Librex documentation, visit our [Librex Documentation Portal](#)

If you would like to read the past editions of our Librex newsletter, we invite you to visit the following page: [Librex Newsletter](#)

Finally, if you think some of your contacts would be interested to subscribe to our Librex newsletter, feel free to invite them to subscribe here: [Subscribe to Librex Newsletter](#)
