Librex Newsletter - December 2015

Hi Marc-Andre,

Here's the December edition of our Librex Newsletter, which has the goal of keeping you informed about various Librex best practices and presenting you some of our new features.

Librex 5 for Christmas!

The Librex team takes the opportunity of this newsletter to offer you our best wishes for the holiday season. Enjoy those moments with your family and friends and we'll see you in 2016.

We're also glad to announce the availability of Librex 5. This version includes multiple enhancements and optimizations which we'll present to you in the next newsletters.

First enhancement: a remodeled look of which here are two examples:

- New [Dashboard](#)

- New [Document Capture](#) window (merged from the former scanning and manual file importation windows)

Unlimited Document Consultation

To simplify Librex acquisition and administration, Librex 5 also sees the disappearance of licenses for users with unlimited document consultation and of the shared document consultation counter.

Along with the unlimited users and workstations, document consultation is now unlimited. This way, you get a hassle-free access to your documents for consultation and audit purposes.
