Librex Newsletter - July 2014

Hi Marc-Andre,

Here's the July edition of our Librex Newsletter, which has the goal of keeping you informed about various Librex best practices and presenting you some of our new features.

Librex 4.0 - 64-bit Version And Simplified Installation

Librex 4.0 offers many new features including:

- New distribution allowing you to install Librex on a Windows 64-bit server in addition to our current 32-bit distribution, offering major performance enhancements.
- Simplified installer. Install Librex quickly and by yourself. If you don't have your own database, Librex will even automatically install an integrated MS-SQL Express database.
- New download portal. Ready to install Librex? [Download and install the latest version](#) to start a free 30 days trial. Also use this link to update your Librex server to the latest version.
- To learn about all the improvements, read our [Release Notes](#).

« Capture to Read » Campaign To Support Literacy And Education

Librex 4.0 also introduces our new "Librex Starter" free licence in exchange of a 30\$ contribution to our "Capture to Read" campaign (+ 30\$ per smart connector). This limited license enables you to capture 2000 pages per year and to consult 2000 documents per year. It allows you to install Librex on up to 3 workstations and to give access to up to 3 users. For more information, please refer to our [Librex Licenses Explanation](#) page.

Following a vote by our team, we've decided to support an organization financing literacy and girls' education and to give all revenues from our "Capture to Read" campaign to this organization. We also commit to donate 30\$ (+30\$ per smart connector) to this foundation in the name of our customers for each sale of our Librex Enterprise license.

For more information on our "Capture to Read" campaign and about the organization that we support, we invite you to visit the following page: [Librex "Capture to Read" Campaign](#).

Thank you for reading our Librex newsletter. We appreciate your interest in our solution and invite you to contact us for any question.

We also invite you to follow us on [Twitter](#) or like us on [Facebook](#) to get all the latest news on Corium and Librex.

To consult the complete Librex documentation, visit our [Librex Documentation Portal](#)

If you would like to read the past editions of our Librex newsletter, we invite you to visit the following page: [Librex Newsletter](#)

Finally, if you think some of your contacts would be interested to subscribe to our Librex newsletter, feel free to invite them to subscribe here: [Subscribe to Librex Newsletter](#)
