# Librex Newsletter - March 2015

Hi Marc-Andre,

Here's the March edition of our Librex Newsletter, which has the goal of keeping you informed about various Librex best practices and presenting you some of our new features.

## Manage All File Formats with Librex

In addition to offering capture tools for any content source (paper scanning, electronic documents importation by web service, by automatic importation folder, by virtual printer, by Drag & Drop, email capture and fax transfer), Librex also enables you to capture files in any format.

Whether it's an image document (JPG, TIF, GIF...), an Office document (DOCX, XLSX, PPTX), a PDF, a video, an audio recording, an AutoCAD or Catia plan or any other file format unknown to Librex, you'll be able to import and process it.

Not all documents can be viewed directly in Librex (only text, image, Office and PDF for now), but for unknown formats, you'll be able to open them with the locally installed application from a single mouse click.

And in any case, you'll be able to link metadata to those documents to enable searches, automatic classification and workflows on them.

## Black Percentage Automatism

Here are some suggestions on how you could use our black percentage extraction automatism:

- Identify which checkbox is checked on a ballot paper

- Automatically correct a multiple choice exam

- Extract selected options from a customer form

- Recognize a document by searching if an image is present or not in a zone

- Determine the presence or absence of text in a zone to find the first and last page of a document

- Check if a document was signed

Thank you for reading our Librex newsletter. We appreciate your interest in our solution and invite you to contact us for any question.

We also invite you to follow us on Twitter or like us on Facebook to get all the latest news on Corium and Librex.

To consult the complete Librex documentation, visit our Librex Documentation Portal

If you would like to read the past editions of our Librex newsletter, we invite you to visit the following page: Librex Newsletter

Finally, if you think some of your contacts would be interested to subscribe to our Librex newsletter, feel free to invite them to subscribe here: Subscribe to Librex Newsletter
